ENTLEMEN :—In response to the solicitation of a number of prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, I have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

the honor to solicit your sunrages at the approximate election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire outh-Eastern Coast of the Island from Johnson Straits

Under the Terms of Union with the Dominion, it is the
province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the
people of British Columbia deem to be best suited to
their varied industrial interests, during the next ten
years. Should, however, the question come before the
Dominion Parliament, I shall endeavor to have the
tariff so iramed as to meet with the concurrence of the

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once, and to erect others elsewhere, as soon as possible, te insure greater safety and certainty in navigating the Gulf.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of Government Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to insure the geological exploration of the vast mineral wealth of your district shall not tion of the vast inheren weath a you district sain.

The Fisheries along our coasts promise to become very profitable, and as the Dominion tiovernment has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor

to secure for your district its full share of any ald that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and Dominional character.

In concussion, dentlemen, if you should do me the hon-r to return me to the House of Commons as your representative, I pledge myself to faithfully serve your 'nterests to the best of my ability.

CENTLEMEN: —Having been requested by a number of Electors to become a capacidate for the representation of this district, I have great pleasure in complying with this request, and beg-to solicit your votes and support. It is customary on such occasions for candidates to express their views and opinions on the leading issues of the day and in deierence to this custom I beg to offer for your approval the following policy.

I am prepared to advocate:

1st Repeal of the Permanent Civfl List Act.

2d Repeal of the Qualification of Voters' Act.

3d Amendment of the Registration of Voters' Act.

4th A National System of Free Schools.

5th Mail Communication and Good Roads to outlying Settlements.

7th Assimilation of our Pre-emption Law with the Free Land System of Canada. 8th Government assistance to farmers for irrigating purposes.

I am opposed to all private legislation for the purpose feranting monopolies, as I consider them to be detr of granting monopolies, as I consider them to be detri-mental to the interests of the community and at variance with the principles of sound political economy. In conclusion I assure you that I shall deem it a plea-sure as well as my duty to support all measures calculat-ed to develop the resources of this district and of the Province generally.

Gentlemen: Nothing can be more gratify-ing than the henor of having succeeded in gaining the approbation and good will of the cople of one the most important constituencies in the country, I have great pleasure in accepting the nomination alluded to in your requisition. The next Legislative Assembly will probably be the most important that has ever met in this colony, and it behoves all good men to be vigilant, and to average the state of the good men to be vigilant, and to exert them- W. H. Huxtable good men to be vigitant, and to the serving of J. H. Turner, E. B. Marvin, Parliamentary Government.

It may be found well in practice to remember that the misrepresentations of those designing men, who so loudly asserted that you were not qualified to exercise political functions with advantage to yourselves or to the country, have been signally refuted, and that twelve years of misgovernment proves most conclusively, that they were not competent to hold, or exercise, the office of governors with advantage or safety to the community. Experience shows that it were vain to expect political improvement from men in whose official career is not to be found material progress, when not identified with their personal profit or advancement. I confess that when speculating on the causes which led to the disastrous retrogression of the past, I am puzzled to account for the long continuance of a political system, to which is traceable so much unmixed evil—a system containing within itself such active elements of ruin, which when considered in the abstract, might have been expected to put an end to its exist-ence much sooner. Nor indeed is this all. It will be the duty of future legislators, in their post morten examination of the late government to fearlessly probe the complicat-

ed disorders which paved a way for its final It is not probable that any modern English community has suffered political ills so pati-ensly as the people of British Columbia. The amount of maladministration, and the extrardinary nature of official aggrandizement is perfectly astounding. Amored eplorable collect tion of despotic follies can hardly be imagined. The lesson which these events teach us is, hat gross legislation and extreme gitation are inseperably connected that each is the blood relation of the other. Nay more, the danger indicated is to be apprehended by placing great powers in the ands of our governors without being secured

It will hardly be disputed by men of candonr aud experience that there are certain requisites indispensably necessary to the security and efficiency of all just governments the most important of which I believe to be freedom and security against wrong. Now I think you will readily admit that most civilized governments have succeeded pretty well in securing the people against wrong from each other; but to secure them by laws against wrong from the government itself, is problem of a far more difficult sort, which ew nations since the commencement of govrnments have attempted to solve. But it is problem upon the solution of which depends the freedom and security of every existing nation against oppression and peculation, and which from its importance commends itself to the anxious and impartial consideration of all

men who are desirous of rendering permanent service to mankind. That it is not the business of those who govern to compel public opinion to follow them, but that it is their duty to follow public opinion, is a canon of my political creed. Unfortunately the practice of those who have governed this colony, has been, both by precept and example to think differently, but the day is not far distant when the prediction of the advocates of justice and of reason shall be verified,-when the unjust and barbarous laws which disfranchised so many intelligen and worthy citizens shall exist only as evidence of the bigotry, and sordid ignorance of those from whom they emanated,—when the promising future proclaims the results of Confederation, the promotion of arts and science, the diffusion of useful truth, of education, of civil and religious liberty.

I earnestly trust that with the advantages afforded by Confederation and Responsible Government our popular representations may so far ignore local issues as to faithfully and permanently reform the bad legisla-tion of the past, and by a comprehensive and liberal policy, inaugurate a new era in our political history and insure the prosperity and

Filling up Victoria Harbor. We directed attention some time back to the alleged filling up of Victoria harbor from natural causes. It appears however, that artificial means are also used to make it shallower. Quite recently a case came up before the Stipendiary Magistrate, wherein a charge was made against the Captain of a local steamer for allowing ashes to be thrown into the barbor. But for want of a more striulaw or some other cause there was no penalty imposed. Now we know but little of the merits of this case, too little to discuss it. But there is this about the matter, that if the present law is not In which La Petite Marion, Little Selina and the who so framed as to reach parties who deliperately throw matter into the harbor to fill it up, another law should be enacted of a more stringent character. It is not now the province of the Local Legislature to legislate on harbors; but it is the duty of the Federal Parliament. It is hoped, therefore, that whoever may be returned to the Ottawa Parliament to represent this district, that they will bear in mind that some legislation is necessary to prevent the harbor from filling up by artificial means. It is also desirable that the City Council should enquire into the reports that from time to time gain currency that the harbor is filing up from natural causes. If such should prove to be the case it would filling up from natural causes. The fact of there not being an agricultural fair held in this town this season, In connection with his old and well known Hotel. very naturally causes the enquiry to be made as to the cause; and then the truth is discovered that it would have been held had it not been for the want of money. Now, although the local Govits surplus revenue to use it all up, still we think that a certain sum might be voted for an agricultural fair to be held annually in the lower country,-and if desirable, another might be held at some central point behind the Cascades, in the neighborhood of Cache Creek or Clinton. Nothing is better calculated to keep up

Nor can it be denied that there is a halo of romance about the cat which fully justifies an ebullition of feeling on its account. Its origin is wrapped in obscurity. descended from the wild cat, or whether it is a modification of a mysterious animal, a favored guest in the homes of the ancient a modification of a mysterious animal, a Egyptians. That these people had some-thing equivalent to a cat in their bouses there can be no doubt, and that this creature bore a striking resemblance to the puss of modern days is proved by the representations of it on the monuments of Thebes and elsewhere. the monuments of Thebes and elsewhere.

Moreover, Ruppel discovered in Nubia a
species of cat (Felis maniculata) supposed to
be the descendant of the Egyptian domestic
cat and the ancestor of our own. Leaving
this question, however, for the College of

New York, Saht. 4-Rev. Geo. Thrall, Rec-

tor of Imaquel Church, Fifty-seventh street, has, at his congregation's request, adopted

the liturgy of the Union Prayer Book, which

differs from that in use in New York. Mr. Thrall states that his ritual is the work of a

number of divines both of this country and

England. It is free from the passages which had given rise to the controversy and con-tention in the Church. The congregation

seemed pleased with the changes made in the
